Peter: the Rock, the Keys and the Chair: (for the full explanation, watch Steve's DVD "Peter: Keeper of the Keys" Where do you find the Pope in the Bible? That question is often posed to Catholics. Steve Ray will go back in history starting with Moses and the history of Israel and the early Church to demonstrate that God intended to appoint a pope in the Church from the beginning. Christianity is the flower that blooms from a Jewish root. To understand our Church, and especially the Pope, one must understand our Jewish roots. Steve will also take us to geographical locations (Caesarea Philippi in Israel) to where Jesus used the geography as a backdrop to explain the papacy. You will enjoy this Bible study and come away proud to be Catholic and ready to obey our ordained leader.
